THE WORLD OVER

GERMANY WISHES TO PAY DEBTS

U.S. UPWARD SWING MAINTAINED

G.B. READY TO CONTROL LIQUOR

NEW YORK—The assertion that Germany will "atrain all her resources to meet her just obligations" is made by Dr. Hjalmer Schacht, president of the Reichsbank, in the German-American Economic Bulletin.

Dr. Schacht adds that "it is only common sense and common justice that willingness to pay on the part of the debtor should be met by a facilitating attitude on the part of the creditor."

LONDON—British industry continues its steady upward swing. Ministry of Labor has issued figures showing the employed on November 20 numbered 3,100,000 more than the previous month, and 597,900 more than a year ago.

A grand total of 2,286,517 unemployed were registered on the exchange Nov. 28, including 1,555,885 wholly unemployed, 340,133 temporarily stopped, and 380,492 normally in casual employment.

Of the unemployed, 1,894,762 were men, 50,873 boys, 238,586 women and 35,993 girls.

Improvement is chiefly shown in coal mining, general engineering, shipbuilding and ship repairing, motor vehicle, metal goods manufacturing, cotton and pottery, iron, steel and distillative industries.

WASHINGTON—Powerful federal machinery for control of the flow of liquor has been adopted for immediate operation upon repeal.

All branches of the alcoholic beverage industry are being brought under the supervision of the federal alcohol control administration to await enactment of permanent legislation by Congress.

The system was adopted after an exhaustive study by experts of different methods of liquor control in various countries, ranging from government monopoly to local administration.

Using the power granted the President by the Prohibition Act and

SHOWER FOR MARY ROWBOTTOM

To honor the marriage of Miss Mary Rowbottom to Mr. A. Pargo, of Drumheller, Mrs. E.M. Harrison gave a miscellaneous shower last week at the home of the bride's parents, Mr. and Mrs. Dick Rowbottom.

Tea was served to the ladies of the district by Mrs. Harrison and Mrs. Alvin Church.

On behalf of the ladies present, Mrs. A. Church presented the bride with a basket of useful and pretty gifts.

Strathmore Standard and Publisher Dies

Mr. A.A. Moore, publisher of the Strathmore Standard, passed away at his home in Strathmore late Sunday after a short illness.

Born in Kincardine Bruce County, Ontario, the son of the late Dr. and Mrs. Moore, the late Mr. Moore was 65 years of age. He had been connected with the newspaper business for almost fifty years.

Mr. Moore was connected with western newspapers for a while and in 1917 went to Calgary, where he became the business manager of the Calgary News. Later he entered the employ of the Alberta as business manager and retained the position for ten years. In 1928 he took over the Strathmore Standard, which paper he operated up to the time of his death.

The newspaper business in Strathmore will mourn the loss of one of its foremost weekly publishers.

"EASY MONEY"

It was revealed recently at the Senate Committee investigation held in Washington, that Arthur W. Cullen, noted grain operator of Chicago, along with a small group of big-money men, made \$12,000,000 in one deal in Speculation in 1928-29 without the investigation of a cent from any of them.

Provision Acts, the government created the federal alcohol control administration through courts worked out for the industry, bringing the liquor industry under the control of the federal government.

These documents, including the 32-metric distillers, importers and brewers, are destined to prevent high prices of liquor that might permit bootlegging to continue in business.

"THE EIGHTH DOOR" PLAYS TO CROWDED HOUSE HERE

When the curtain rose on Friday evening last, local players were greeted with a capacity house for their production "The Eighth Door," which was sponsored by the Carbon L.O.D.E.

The play was a decided success and went over with a "bang" from start to finish. It had mystery, comedy and drama, all combined into an interesting plot from the start when handbags sought refuge in a supposed haunted house until the final scene when a crooked lawyer and young love came to light.

The play was under the direction of our local book manager, Mr. McGeorge, who deserves much credit for the way in which he prepared the various members of the cast for their parts.

The players, individually and collectively, represented their parts with marked ability and the "eighth door" in the floor, from which the play took its name, proved to be the conclusion to many a scene.

The following were the members of the cast which produced the play:

Dick Jack Henderson
Helen Miss Kathleen Watkins
Percy Eddie Sellers
Dick's Mother Mrs. L.S. McQuinn
Dinah Mrs. G.W. Malton
Jackson Harley Wilson
Brown J. Radcliffe
Joe Cyril Paxon
Jones (the sheriff) Bruce Ramsey
Sam Alfred Paxon
M.J. Anderson Miss Daphne Nairn
Miss Vera Miss Vera Nairn

While the haul was considered to be satisfactory, many did not get the opportunity to see the play and for their benefit the performance will again be put on in the Farmers' Exchange hall, Carbon, on Wednesday evening, December 13th.

On Thursday evening, December 14th, the players journeyed to Acme, where they will put on the play. It was a success here and should prove so in our neighboring town.

FARMERS URGED TO PREPARE BIRDS FOR MARKET EARLY

Produce merchants and shippers are urging farmers to prepare their poultry early for the market in order that shipments may be sent early into the eastern market. Shipments are now being prepared for sale in Montreal and, as Christmas draws near, the market will be served nearer home.

Because of this outside demand produce houses hold the opinion that prices are fairly good at the present time.

When delivered to the produce merchants the dressed birds are graded A or B or C according to their quality. It was stated Friday evening that most birds from the Calgary district are graded "B" but that a large number were getting the higher grading. They are graded and stamped by the government grader before being placed in refrigerator cars for the haul east.

Farmers were urged to finish birds properly and to stick them rather than to wring their necks or chop their heads off. Striking was preferred because this permitted the shippers to apply the appropriate stamping, therefore shipment birds should be delivered freshly killed.

ALBERTA NEWS

Winners at the Royal Fair

Alberta exhibitors in all classes at the Royal Fair, Toronto, this year have won up victories until the province has come within an ace of equalling last year's great record. The imposing total for this year is 255 prizes. Last year there were 245 prizes. This year the championships in all with four special prizes. This year the championships number 24 with the same number of special prizes. The grand champion ships include two in field crops, one in dairy cattle, one in beef cattle and two in poultry.

Hog Marketings

Marketing of hogs from Alberta for the present year up to November 16, shows a total of 72,721 sent to market, which is an increase over the marketing of last year. The percentage of those grading select, however, is somewhat smaller than last year being only 7.4 per cent as compared with 8.2 per cent last year, while the percentage of hogs was 31.7, and the percentage of butchers was 48.3, with percentages showing an increase over last year.

CLOSED SEASON FOR FISH

Closed season is now in effect for both whitefish in Alberta lakes, and for angling in the various rivers and streams of the province, and infractions of the regulations in this connection are being firmly dealt with. Several convictions have already been recorded. "It is of first importance that the seriousness of such infractions should be emphasized," said Mr. Reid, minister of lands and mines, "there is a very definite reason for a closed season, and that is to protect the fish during the spawning season, and consequently to insure a continuous supply of the fish in our lakes and streams. Were there no closed season, the supplies would very soon be depleted."

SASKATCHEWAN WINS WORLD'S WHEAT HONORS

CHICAGO, Nov. 4—Canada today won her 19th world wheat crown in 23 years and her second oat championship at the International Hay and Grain Show here.

Judges awarded first place among the world's wheat growers to Frank Jackson of Elfron, Sask., and premier position among growers of oats to Ian Smith, Wolf Creek, Alberta.

Victories of the two western agriculturists climaxed a season of wins by the Dominion's growers as the cereal grandstand was jammed with the winning positions in many classes.

Smith's oats topped those shown by Ellis Ahrich of Patroway, Mich. He gained their rice won last year by Fred Hamm, of Goodfame, Alta.

A pioneer in the Elfron district since 1906, Jackson won the major prize of the show on hard red spring wheat of the Howard variety made famous by three times wheat king, Herman Treloar of Wembley, Ala. In 1922 Jackson placed 12th in the spring wheat class and in 1930 was 34th.

Saskatchewan's sowing of wheat kings at he International mounted to 11 as Jackson achieved victory.

Alberta has won the title seven times and Manitoba once. But king of all wheat kings was still Governor Wheeler, the grand old man of the soil at Rosthern, Sask. who won the crown five times.

COMMITTEES APPOINTED FOR SKATING AND HOCKEY CLUB

At a meeting of the Executive of the newly formed Carbon Skating and Hockey Club held last week, the following committees were appointed:

Athletic—Messrs. S. Nelson, S. J. Garrett and K. Hutchinson.

Membership—Messrs. H.J. MacDonald and P. Edwards.

Ways and Means—Messrs. S. F. Torrance and Cyril Paxon.

"That poor fellow made a big mistake."

"What was it?"

"He thought he could flirt, but the girl married him."

Shoe Shop Proprietor—Here comes a couple of lady customers.

Assistant—Shall I wait on them?

Proprietor—No, I'll wait on them. You be ready to stretch some shoes.

Business Man—Yes, I advertised for about your size. Do you remember?

Applaud—No, thanks, but you can blow me to an ice cream soda if you want to.

John—Well, and how's your wife feeling, Pat?

Pat—Oh, her head's troubling her a bit.

John—That's bad. Got neuralgia?

Pat—No; wants a new hat.

THE BUDGET

The International Institute of Agriculture at Rome, forecasts six crops of wheat will be drawn on to the extent of 150,000,000 bushels this coming year. It also estimates world requirements of wheat for the year at 325,000,000.

Alberta Pool Elevators Report

Alberta Pool Elevators' financial report for the year ending July 16, 1933, presented to the annual convention showed earnings for the year at \$587,448.69. This sum was offset as follows: Depreciation \$236,444.81; amount to Alberta Government, \$282,450; balance carried to reserves, \$129,544.64. The system handled more than 48 million bushels of grain.

TAXATION BD. IS APPOINTED BY GOVERNMENT

Announcement of the appointment of "The Alberta Taxation Inquiry Board" which will make a study of all aspects of taxation, provincial and municipal, was made by Hon. R.G. Reid, president of the municipal affairs.

The person in charge of the board is the Hon. R.G. Reid, president of the board. The board will include the Hon. J.L. Duncan, together with J.P. MacKay, Deputy Provincial Treasurer, and J.A. Thompson, provincial auditor. The chairman of the board will be Mr. Percival, and Frank Baker, who for seven years was in the Alberta government and has recently returned, will be secretary.

The first commission of this kind was the Tory Commission, headed by Dr. H.M. Tory, former president of Alberta University. Last year the committee of the Tory report were brought up to date and presented to the legislature. It has been the feeling of the government, however, that the conditions with which the province is faced since that commission sat, and with new economic factors entering into the picture, a complete re-assessment of the taxation situation was advisable.

In considering the constitution of the new board, due regard was had to the fact, said Mr. Reid, that by including the members of the present assessment commission of the province, representation was provided for both urban and rural interests, since that principle prevailed when first the present assessment commission was named some years ago.

Opportunity will also be afforded to individuals and organizations interested in matters of taxation, to bring forward suggestions and material of use to the commission.

McKIBBIN'S DRUG STORE

A.F. McKibbin, Ph.D., Prescription Specialist, CARBON, ALTA.

"Culls or Skulls", whichever way they are spell suits Georg Von Opel, who captured the Diamond Skulls at Henley, England, and who was a winner at Toronto from a month of hunting south of Haarf, world famous Canadian Pacific Rocky Mountain Resort, and has brought back with him splendid specimens of his game skulls. After looking for a two week trip he found the spot so good that he increased it to six weeks. Elk, moose, mule-deer, Rocky Mountain Goats, and Eldorado Sheep and added to his collection while hunting, but failed to get a grizzly. For two days he trailed one big fellow, but the inclement and changeable weather met with, made success impossible. The grizzly, however, annoyed by the trailing, turned the tables on Georg by trailing the hunter to camp, and strutting George most prized goat head. Von Opel made the trip with Frank Phillips, famous Rocky Mountain guide. Picture shows Von Opel on the right.

EDOUARD J. ROULEAU,
Editor and PublisherANNUAL REPORT SHOWS BANK
OF MONTREAL IN STRONG
POSITION

Readily maintaining its usual strong
 position, the Bank of Montreal is for-
 warding to shareholders the annual
 statement for the fiscal year of Oc-
 tober 31st.

The summary of the report, which
 is issued in an understandable form
 and appears in this issue, shows the
 Bank at total assets of \$768,535,906,
 to meet investment and other liabilities
 to the public of \$692,218,815, leaving
 in excess of assets amounting to \$76,317,
 090.

While total assets are practically un-
 changed from a year ago, there has
 been an increase of over \$50,000,000
 in the holdings of high-grade securities
 and a corresponding decrease in cur-
 rent loans, due to the lessened re-
 quirements of the banks customers
 under prevailing credit conditions. As
 a result of this change, liquid assets
 are up to \$492,526,844, equivalent to
 71.15 per cent of liabilities to the pub-
 lic, as against 438,006,000 a year ago,
 equal to 63.45 per cent. Included in
 liquid assets are cash holdings of
 \$78,683,217, or 11.35 per cent of public
 liabilities.

An interesting feature of the state-
 ment is the maintenance of total de-

REDUCTION

PLACE YOUR NEXT ORDER WITH
The Chronicle

points at the high level of \$611,546,710.
 These compare with \$548,322,663 a year
 ago.

Profit and Loss Account

Profits for the year are substantially
 lower, due to the smaller volume of
 business offering and the lower rates
 of interest on securities. In the other
 hand, distribution to shareholders is
 well below that of previous years, due
 to reduction in dividend rates. After

taking care of all distributions, the
 total of the credit of profit and loss
 amounted to \$1,846,451.

As was to be expected, the largest
 proportion of liquid assets are in gov-
 ernment and other bonds and debentures,
 the total of them being \$316,
 947,375. The greater portion of these
 securities mature at early dates. These
 holdings are up from \$264,729,444, at
 the end of the previous year.

The call loans in the same way
 showed at tendency to increase, call
 loans in Canada being up \$1,607,169
 from \$15,157,490, while those outside of
 Canada were \$98,354,280, as compared
 with \$28,951,135 a year ago.

Current Loans Contract

As opposed to this situation, the
 customers of the Bank have not re-
 quired as much accommodation as in
 order more normal trade conditions. As
 a result, current loans are down to
 \$251,885,262, from \$302,981,289 last
 year.

Total profits were \$4,005,153, equivalent
 to 5.32 per cent on the com-
 mitted capital, rest and undivided
 profits. They are down from \$4,682,
 196 a year ago, a decline of approxi-
 mately 650,000. Out of the profits there
 was set aside for dividends shareholders
 \$2,060,000, as compared with
 \$2,060,000; provision for taxes Domi-
 nion government, 598,558, and reser-
 vation for loans rendered, \$100,000.
 After all deductions, an addition of
 \$326,594 was made to profit and loss
 account.

A Foundation for Goodwill

There is a very solid foundation for the goodwill that prevails
 towards United Grain Growers wherever the sign of this company
 appears on an elevator throughout western Canada.

It rests on many years of useful service and a long demon-
 stration that this company not only desires to take care of the interests
 of its farmer customers, but it has the organization, the equipment,
 the resources and the experience which enable it to do so.

Whether in selling grain or in buying farm supplies it is sound
 business to deal with this Company.

Fame Of Canadian Poultry Once More Demonstrated At World's Congress Held In Rome

Canada's world-wide fame for efficiency and the high quality of her poultry has once more been fully demonstrated. With the return from the Fifth World's Poultry Congress, which was held at Rome, Italy, F. C. Elford, Dominion Poultry Husbandman, official co-delegate with W. A. Brown, Chief of the Poultry Division, Dominion Live Stock Branch, some specially interesting information is being obtained with regard to this historical meeting.

Canada was the only exhibitor of live birds having government official records, a fact which created widespread interest, visitors from all parts of the world arriving at the Congress exhibit demanding to be shown the birds with the Government certificate.

Canada was represented by a small but attractive educational exhibit and by a number of registered R.O.P. and exhibition bred birds. When the bird exhibit was being prepared, and because the birds were first promised by the Canadian National Poultry Record Association, it was considered better business not to sell these birds, but to donate them to persons, institutions or governments where they would do the most good for Canada. Among the birds that were donated was a trio of Chanteclers to His Holiness the Pope, several trios to the Italian Government and a trio to the British Canadian General.

There were also the two official delegates already mentioned, and in addition many Canadians attended in their private capacity. The educational exhibit told the story of Canada's national breeding policy; illustrated moving poultry industries in schools and with boys' and girls' clubs, farmers' flocks, the interior of a poultry laboratory, poultry culling and selection, R.O.P. flocks, health contacts and registration, marketing, standardization, grading, etc. The attractiveness and the completeness of the exhibit made the Canadian exhibit a very popular one.

One remarkable point about the Congress was that it marked the re-opening of the Market of Trajan after a period of 2000 years. During that time the market had been lying buried among the ancient ruins of Rome, and twenty centuries ago had been the popular produce market where the Romans purchased their eggs and poultry from the farmers. These ruins have been dug out and repaired, and significantly enough the reopened market was first used for the educational and live bird exhibit of the Fifth World's Poultry Congress. It was here in the Capital that the cackling of the sacred geese prevented the capture of the market place, cited by the barbarians, so that the historic setting of the Market for the Congress was especially appropriate. However, the six floor contacts and numerous stairways of old stone steps were not the most convenient for an exhibit of this kind, and the most advantageous for the attendants who had to climb five or six stories from one exhibit to another.

The Congress sessions were held in the building of the Agricultural Institute, and were attended by delegates from practically every European country and from Japan, Palestine, Australia, New Zealand, South Africa, the United States and Canada.

These congresses are the tri-annual meetings of the World's Poultry Society Association, and professor Antonio Ghigi of Italy was selected Congress director and its next president. The delegates were given every opportunity for sight-seeing, and included Rome and its environs. Naples, Pompeii, Vesuvius, etc. On two afternoon sessions of Italy were shown where swamps had been drained and the land reclaimed for agricultural purposes. The stupendous work made apparent by a visit to places such as Littoria, where 65,000 acres ten years ago was a malarial swamp covered at times with several feet of water, are today reclaimed land being brought into farms. A part of this is devoted to cultivated farms inhabited by a happy population, with the death rate from malarial fever almost non-existent.

Machinery for making dikes has been developed which is said to enable three men to do the work that formerly took 100.

A French author states that on waking from sleep ants yawn and stretch their legs like human beings.

Funds Are Lacking

Proposed Establishment of Central Library Agency For Free Forest The Carnegie Corporation of New York stands ready to establish a central library agency for Canada, at a cost of more than \$100,000 for the first five years, if guarantees are forthcoming that the project will receive adequate financial support from Canada at the end of the five-year period.

So stated John Rittington, University of British Columbia librarian, who returned from a conference in Chicago with Dr. Frederick Kapp, president of the Carnegie Corporation.

The scheme was temporarily abandoned, Mr. Rittington said, when he could give no assurance that either the federal government or provincial governments would continue the library and educational work when they would do the most good for Canada. The agency would be established in Ottawa and "would act as a focal point for all library activities in the Dominion. It would be a co-ordinating and educational force and do bibliographical work," the university librarian said.

Chalk Fall Creates Island

No One Hurt In Cliff Slide On English Coast A new island appeared in the English Channel between Dover and Deal, when thousands of tons of chalk at Sarkland Point peeled away from the cliff and hurtled into the sea with a great roar.

Collapsing of the cliff was the greatest fall on the English coast for many years. At high tide the chalk forms an island 800 feet from the mainland. No one was hurt in the slide.

MEN: WATCH YOUR NECKTIES! MODERNS HAVE TAKEN A LING TO NECKTIE SILK BLOUSES

Today's pattern shows a most interesting blouse built right up to the neckline and tied in sporty neck effect. However, if you prefer to be a bit more feminine, trim the edges with ruffling. The miniature view illustrates exactly how to make this ruffling. It is so simple to do it. Colourful tie silk inspired this blouse with a black wool or black green. Ruauet brown, verdelgrise, black, purple, white, etc., in satin or faille type are other nice schemes. Style No. 524 is designed for sizes 14, 16, 18, 20, 22, 24, 26 and 40 inches bust.

Size 14 requires 1 1/2 yards of 35-inch material with 1 1/2 yards of 35-inch contrasting. Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap coil carefully.

Grasshopper Menace

Migratory Variety, It Is Found, Will Cause Great Damage Warning that grasshoppers threatened heavy crop damage next year were heard as representatives of several states and Canada considered how to combat the insects. Entomological and others met at Fargo, N.D., at the call of the Greater North Dakota Association state-wide organization of civic and industrial leaders. Dr. J. R. Parker, senior editor of Agriculture, said there was a trend from comparatively harmless types of the insects toward migratory varieties causing great damage. Dr. Parker referred to the situation as perhaps rivalling that of the '70s when grasshoppers ravaged part of Canada and the Mississippi River basin.

R. C. Bird, Dominion Entomologist, spoke for Canada.

Keeps Tab On Bullet

Kansas Boy Has Carried One In Heart Covering Three Years Virgil Bennett, 21-year-old farm youth, of Halls Summit, near Kansas City, has carried a bullet in his heart for three years. The bullet, an X-ray examination to determine if a bullet he has carried around with him for three years still is in his heart. Bennett was shot accidentally in the neck three years ago as he prepared to go hunting. The bullet ranged forward and an X-ray examination revealed it had lodged in the fibrous heart covering. An operation to remove the bullet was decided, and so they left the bullet alone.

Although young Bennett does heavy farm work the bullet has never caused any trouble. He undergoes periodic X-ray examinations, however, to keep tab on the whereabouts of the bullet.

People Selling Old Gold

High Prices Bred Jewelry To Royal Canadian Mint Jewelry is flowing into the Royal Canadian Mint, at Ottawa, with gold selling at over \$35 an ounce. The high prices are bringing out ancient and modern pieces, the long-treasured rings, the heavy brooches, and the old-time watches.

The Dominion Bureau of Statistics announced that jewelry and scrap containing 45,317 ounces of gold had been received by the Mint during the first nine months of this year. This would probably bring around \$1,200,000.

The flow is continuing to increase. In August 12,502 ounces were received, and in September 15,769 ounces. The October figures are not yet available.

Bargains Draw Crowd

When a North London tailor shop recently offered a suit for four cents men were waiting in line when the sale started. One man had slept on the doorstep all the night before. Trousers were offered at eight cents a pair and overcoats at 12 cents. The clothing was of fairly good quality and had been obtained from a bankrupt stock.

Alfred Nobel, the man who discovered dynamite, and the first to introduce smokeless powder, left over 41,500,000 for prizes devoted to industrial peace, humanity and literature.

Campbells trees sometimes grow to height of 130 feet.

CHINESE WAR LORD SETTLES IN ENGLAND

Marshall Chang Hsueh-Liang, the Chinese war lord, who is famed as one of the most formidable fighters in the far eastern politics, has thrown aside the habits of war and is settling down to the leisurely pleasures of life as a fashionable man in England.

A Successful Tour

Nearly 40,000 People Attend Forestry Car Lectures Last Season Nearly 40,000 people attended the lectures on the Canadian Forestry Association Tree Planting Car during the past season, according to the report of Alan B. Beaven.

The car left Regina March 25, and travelled for four months over the C.N.R. lines and then for three months over the C.P.R. lines. It visited 128 centres, at which 250 lectures were given. Over 200 people crowded into the car to hear the lectures and see the movies, scenic and beautifully colored slides from actual photographs taken in Saskatchewan, showing home beautification.

One hour of actual lecturing on tree planting and its benefits, particularly for shelter belts, home, street and public building beautification as well as for churches, cemeteries was given. Question periods followed each lecture. Invariably 30 or more especially interested listeners took part in the resultant discussion. Civic societies were contacted with plans for free tree planting and beautification. Similar assistance was given to many farmers whose grounds were visited by the car staff.

Four hundred and sixty letters of inquiry for information were answered in addition to those contained in the car. School authorities and teachers declared holidays that children might attend. Special question periods were added to children's lectures for benefit of older pupils. Hints and assistance given for planting of trees and shrubs on farms.

Many orchards were found springing up as a result of protection afforded by shelter belts which in turn had been inspired by earlier tours of the forestry car.

The car returned to Regina, October 11.

Mileage covered was 2,217 miles.

Express Thanks

Saskatchewan Wheat Pool Delegation Grateful For Assistance Given On behalf of their former organization, the delegates of the Saskatchewan Wheat Pool at Regina, expressed deep appreciation to the people beyond this province who have given assistance to the drought-stricken area of Southern Saskatchewan. A motion of thanks introduced by two delegates from the affected area was adopted unanimously.

As it was pointed out, the other provinces of Canada, from coast to coast, had come to the relief of thousands of people by successive crop failures, by supplying them with cereals, fruit, vegetables, clothing, etc., realizing what this help meant to them. In southern Saskatchewan people in a period of great distress, the delegates wished to make known how deeply they appreciated the action of their fellow-countrymen.

Type Canada Needs

A young girl who has been in this country for only six years (having previously lived in Hungary) was the main purpose of the meeting, intended by representatives of 15 agricultural colleges, is to review the agricultural situation in Canada as a whole. The idea of bringing about a general reduction in production costs and improvement in the quality of farm products.

Proposal To Establish An Educational Foundation As Memorial To Farm Leader

Hunted Cattle For Hides

For 200 Years Argentine Ranchers Used Little For The Meat

For two centuries, says the National Geographic Magazine, man's chief occupation among the gauchos or cattle ranchers of the Argentine pampas was the pursuit of wild cattle. Stupendous numbers were slain merely for hides and tallow, as was true in California when there saw it and wrote "Two Years Before the Mast." Besides the many hides sent to Spain and smuggled out to other lands, countless thousands were used on the pampas for making clothing, hats, sleds and even fences.

It was so cheap that a ride would kill one merely to cut meat enough for his lunch. One Argentine hunter says soldiers used to shoot a beef so that they might better horses to their horns, there being no fences.

And it was easy to capture them. A band of gauchos simply surrounded the herd. Then each man, armed with a long-handled pole, or lance, would charge into the herd and thrust a sharp blade into a half moon hamstring as many animals as possible before the herd broke away. This done, the gauchos dismounted, skinned the fallen animals, and abandoned the meat to carrion birds and wild dogs.

Hides took the place of money. When, by the treaty of Utrecht, England attained the sole right to import slaves into the River Plate country, she stipulated that the blacks should be paid for with hides and tallow.

From hunting cattle mostly for their hides, the folk of the pampa turned by 1850 to the export of dried beef. The men went to feed slaves in the West Indies, where their labor was then building up the tobacco and sugar industries. "Jerky" (salt beef) still made by the men in the meat drying shed on the big estancias, and sometimes huge racks of it, like haystacks, are piled in the open air.

Review Agricultural Situation

Much Money Wasted By Unwise Purchase Of Farm Machinery Money annually "wasted" by unwise and useless purchase of farm machinery in western Canada was under consideration by the associated committee on agriculture of the national research council meeting in Toronto under the chairmanship of Dr. H. M. Tory.

The question was introduced by Dean E. A. Hovey of University of Alberta faculty of agriculture. He alerted a great deal of money could be saved each year if the matter was thoroughly investigated by the committee and the farmers educated to more judicious use of their money.

At a hotel in a popular holiday resort, ministers are allowed special rates during certain periods of the year. One minister was somewhat surprised on arriving at the hotel not to see any brother clerics and asked the maid if there were any in residence.

"Yes, sir," she replied, "there are several ministers here, but they don't wear clerical clothes; they just look like gentlemen."

One On The Clergy

"Yes, sir," she replied, "there are several ministers here, but they don't wear clerical clothes; they just look like gentlemen."

Lanching Powerful Tug

The Swarte Zee (Black Sea), said to be the largest and most powerful tug in the world, will be ready for launching shortly. Engines are being installed in Amsterdam, Holland. The vessel is 207 feet long. It will have two Diesel motors, aggregating 3,000 horsepower, and capable of developing 17 knots an hour for work in ice.

Tablet Honors Novelist

On the house in Rock Park, Rockferry, Birkenhead, England, where Nathaniel Hawthorne, the New England writer, lived when he was American consul in Liverpool, has been placed a tablet in his memory. The inscription reads: "Nathaniel Hawthorne, novelist, resided here from 1854 to 1858."

British factories are reported to be receiving many orders from the United States.

By an unanimous vote, delegates of the Saskatchewan Wheat Pool, at their annual meeting in Regina, approved the establishment of an educational foundation, probably to include all three prairie provinces as a memorial to the late A. J. McNeil. Mr. McNeil was first president of the organization and of Canadian Co-operative Wheat Producers, Limited.

Accordingly, steps will be taken immediately to secure contributions to a fund to be known as the McNeil Memorial Foundation.

The objective of the foundation would be, by means of an educational programme, to perpetuate the memory of a outstanding Canadian. The programme would be designed to serve: (1) The development of an appreciation of the principles of co-operative effort; (2) A higher standard of living for the farm homes of western Canada, with a greater measure of social and economic progress and an opportunity to live a fuller, freer, and happier life; (3) The building up of a wider recognition of the great quality citizenship as between rural and urban dwellers, to end that equality of opportunity may be forthcoming to all classes of citizens.

The other provincial pools have indicated they are prepared to co-operate in the establishment of the foundation.

The committee suggested that the educational fund of the Saskatchewan foundation might include—essay contests in schools; promotion of study groups among the agricultural population; award of scholarships and bursaries in western Canadian universities; placing of suitable reading material in public school libraries; the west; junior and senior experimental and research work in agriculture.

Cow At Banquet

Brampton Honors Jersey Cow Who Brought World's Record Milk "Brampton Basilio," a Jersey who has just broken the world's record for milk and butterfat production in a single year, was guest of honor at a banquet held at Brampton, Ont. Her owner, D. O. Bull, started to thank his milk cow for her record. The woman's institute for providing the report.
